Objective

As a student majoring in Website Design and Development, I possess a solid foundation in HTML, CSS, JavaScript, and the React framework. I am actively seeking opportunities to apply and expand my skill set, with the ultimate goal of evolving into a proficient full-stack web developer.

Education

Georgia Northwestern Technical College

Expected Graduation: Summer 2024 Degree: Associate of Applied Science

Major: Web Site Design/Dev Degree

Experience

Currently studying Website Design and Development, and I've worked hands-on creating different web development projects that demonstrate my skills and understanding of the field.

Personal Project: Full-Stack E-Commerce Web Application using React for the frontend and Node.js, Express, and PostgreSQL on the backend.

Accessible at: www.dirtyburgerproject.com you can also view the GitHub repo for this project here: <https://github.com/BigBobandy/E-Commerce-Site>

Skills

- Front-end Development: Proficient in HTML, CSS, JavaScript, and the React framework.
- Back-end Development: Experience with Node.js, Prisma, SQLite, and PostgreSQL.
- API Development: Skilled in creating and managing APIs.
- Version Control: Proficient with Git for source code management.
- Problem Solving: Effective at diagnosing coding issues and implementing solutions.
- Typing: Efficient and accurate typing skills.
- Time Management: Effective at prioritizing tasks and managing time to meet deadlines.
- Organization Skills: Capable of managing multiple projects and responsibilities simultaneously.
- Computer Literacy: Adept at using various software and tools, with a strong understanding of the Windows operating system.
- Analytical Skills: Proficient at analyzing complex scenarios.
